

Mr Andrew Doble
Testimonials

Mr Doble is simply the person to see when you are dealing with chronic pelvic pain. I am a doctor myself, and I am still amazed at how few Urologists have an understanding of the condition. Mr Doble has been brilliant from start to finish. Not only is his knowledge first class, he has excellent communication skills - a key skill when dealing with what is both a sensitive and emotional diagnosis. I can't be more grateful for his help to date in greatly improving my symptoms.
